

K2 Wind Power Project Community Liaison Committee

Monday, December 2, 2013

6:30 p.m. – 8:30 p.m.

84685 Bluewater Hwy 21, north of Goderich (formerly St. Joseph's School, Kingsbridge)

Open to the General Public for Viewing

About the CLC

A Community Liaison Committee (“CLC”) has been established as a forum to exchange ideas, share information and provide regular updates regarding construction, installation, use, operation, maintenance and retirement of the K2 Wind Power Project (“the Project”). The 270 megawatt wind Project received its Renewable Energy Approval in July 2013.

Stantec Consulting Ltd. will coordinate the CLC meeting. All meeting materials (minutes, presentations, reports, etc.) will be made available for public review on the Project website at www.K2Wind.ca. The agenda for the meeting will be posted on the Project website at least one week in advance. The CLC meeting is open to the general public for observation.

For more information on the CLC please contact:

Herb Shields, CLC Facilitator
Stantec Consulting
519-836-6050 ext. 243

For questions or requests for additional information not pertaining to the CLC, please contact the K2 Wind Power Project Team at:

E-mail: K2Wind@capitalpower.com

Telephone: 519.524.2760

About the Project

- K2 Wind is constructing a 270 megawatt wind power facility in the Township of Ashfield-Colborne-Wawanosh.
- The Project includes 140 Siemens model SWT-2.3 wind turbines.
- The Project also includes electrical collection and communications systems including a transmission line, a transformer station, a substation, operation and maintenance building, meteorological towers, turbine access roads and temporary construction and laydown areas.
- Thousands of employment hours will be created during the 18-month construction period.
- In March, K2 Wind and the Township of ACW signed a Community Benefits Fund Agreement that will deliver an annual payment of approximately \$700,000 to ACW over the life of the Project.
- More information about the Project, including Project mapping, is available at www.K2Wind.ca.
