

Summary of Verbal Comments Received during the Public Meeting

Comment / Question
<i>Project / Technology / Infrastructure / Project Location</i>
Pricing of power, buying and selling power at losses and gains.
Why wind power?
Turbine placement.
Explain what the transformer station and substation is.
Size of the wind turbine foundation.
Where will the gravel come from?
Plans for off-shore development.
Capital Power and coal.
Cost of turbine maintenance.
Turbine efficiency.
Concern regarding the placement of Vacant Lot Surrogate Receptors (VLSRs) on properties.
<i>Project Studies</i>
Archaeology finds and the stages of archaeology.
Infrastructure on land and the requirements for Stage 3 archaeological work.
<i>Health and Noise</i>
What is behind health concerns and wind power?
Studies on low frequency noise.
Noise from wind turbines and effect on the inner ear.
<i>Wildlife and Natural Environment</i>
Disturbance to groundwater during construction – description of the construction.
Groundwater concerns near the substation.
Impacts to bird migration.
Impacts to bats.
Mortality monitoring methods and overview of findings.
Various features including amphibian corridors and assessment and the ANSI.
<i>Visibility</i>
Substation and transformer station appearance.
Transformer station landscaping views.
<i>Communication and Meeting Approach</i>

Comment / Question
Impacts to community relationships.
Concerns regarding wind project protestors and their approach.
Why don't you hold a presentation style meeting?

Public Meeting Participant Feedback Form Summary

Correspondent	Date Sent/Received	Date Responded	Feedback Form Summary	Project Team Response Summary
123	July 12, 2012	September 11, 2012	<ul style="list-style-type: none"> Noted he lives in the Project Area. Asked why there were protestors at the Public Open House. Requested to be added to the Project mailing list. 	<ul style="list-style-type: none"> Thanked the correspondent for attending the July 2012 Public Open House.
