Subject: MTCS comments - K2 Wind Power Project revised layout

Dear Sarah,

This email is regarding the proposed changes to the K2 Wind Power Project layout, which were sent to the Ministry of Tourism, Culture and Sport (MTCS) on June 16, 2012 by Amec.

On March 2, 2012, MTCS issued written comments on the Heritage Assessment report for the project, expressing our satisfaction with the findings of the report.

MTCS has reviewed the submitted addendum and maps illustrating the location of the proposed changes in relation to the Heritage Assessment for which we issued comments, and find that these changes will not affect the recommendations of the Heritage Assessment nor will it change the comments MTCS has previously provided.

If further changes to the project layout take place, please continue to keep our office informed.

Sincerely,

Laura

Sarah,

I can confirm that MTCS issued the written comments on February 24, 2012, and that the March 2 reference in Laura's email dated July 3, 2012 was an error. The Ministry of the Environment can contact me directly should they have further questions regarding this matter.

Regards,
Paula

Hi Paula,

I gather that Laura is away for the year so I am hoping you can help us with this matter. An issue that has arisen with the MOE review of our REA application. I have detailed the issue below for your reference.

The MOE is concerned that the acceptance letter we received from MTCS regarding this project is dated February 24th but the email below reconfirming our report indicates March 2 (below). I am hoping you able to provide us with something to clear this up for the MOE.

Thanks
Sarah

Hi Laura, Chris,

We have submitted our REA application to the MOE and they are concerned that the acceptance letter we received from regarding this project is dated February 24th but the email below reconfirming our report indicates March 2. I was wondering if you could provide something to clear this up for the MOE.

Thanks
Sarah Palmer
